“HUNAR SE Swarojgar” हुनर से स्वरोजगार

“If you cannot do great things, do small things in a great way.”

-Napoleon Hill

“HUNAR SE Swarojgar”
हुनर से स्वरोजगार

Cyber Academy (a Group of BSS) is a leading non-profit organization in the vocational training & skill development sector since 1998. Registered as Private Training Partner (PTP) with U.P. Skill Development Mission, Government of Uttar Pradesh, Pradhanmantri Kaushal Vikas Yojna (PMKVY) and DAY-NULM (SUDA) Cyber Academy strives to meet and exceed the highest standards of training and manpower requirements of various corporate & private companies in whole state.

Organizing skill development training on a large scale, Cyber Academy is running its almost 34 centers in 10 major districts of Uttar Pradesh. Students are being provided the technical knowledge of various trades including Garment Designing & Textile, Constructions, Food Preservation, Retail, Security, Paint and Information & Communication Technology etc.

It is the strong commitment to quality training and skill development that enables Cyber Academy to meet the intent of current industry needs. Apart from imparting vocational training, Cyber Academy also provides placement and self-employment opportunities to trained candidates.

- **Our Vision** - *"Tamso Maa Jyotirgamay"* Let's enlighten our future with the light of knowledge and enhanced aptitude

TRAINING ON WHEELS

Rural areas are facing the absence of resources in terms of Infrastructure, Skilled trainers & awareness and hence it is difficult to impart training in those areas. Keeping all this in mind, Cyber Academy has started a training model “**Training on Wheels**” based on Mobile Computer Lab and Theory Classrooms. This model has already proven its importance in rural areas and day-by-day getting more popular amongst villagers.

It is a Learn While Earn model, where computer lab and training centers are established onsite itself like; labour campgrounds. It helps candidates attending classes without travelling and to carry on with their routine. It saves their traveling time and expenses occurred into it.

The major advantage of “**Training on Wheels**” is to save huge investment as is required for fixed infrastructure. In rural and backward areas expenditure can be saved on those building which are especially built for skill development training.

The other advantage of this model is, after completing the training at one place, the whole center can be moved to another place quickly and so, maximum geographical area can be covered by these mobile training centers and more number of candidates can be trained within short span of time.

“SKILL TRAINING ON WHEELS”

Cyber Academy ERP:

Our exclusive CRM software activities provide an efficient and fast delivery for clients looking to fill a variety of vacancies.

Our website advertises all of the company's current vacancies

Our database holds over 5,000 candidates currently working or wanting to work. A high proportion of these candidates receive live job notifications via the website.

We receive many applications through the website per day; we are finding that many of these candidates are registered with the **Uttar Pradesh Skill Development Mission (UPSDM).**

Access to specialist recruitment databases – The Cyber Academy Exclusive service includes a detailed search across multiple databases to find prospective candidates matching your requirements.

The Benefits:

The placement cell provides a client with a range of added value benefits when looking to recruit one or multiple positions.

Avoid Duplication of Candidates – Time and resources are maximized by ensuring that

candidates are not considered more than once!

Assignments Paid On Success Only – No upfront fees, only commission paid on successful vacancy completion.

Discounts Available for Exclusive Contracts – All retained agency contracts receive a discount on the standard commission rate, dependent on the length of the exclusivity agreement.

Internet Job Advertising – Every vacancy we receive is advertised online on our portal.

Access to specialist recruitment databases – The service includes a detailed search across multiple databases.

Large Candidate database – Our database has over **5,000** candidates working within specialist sectors all of whom are working or looking to work in country.

Direct Applications – On a daily basis we have over 50 applications a day from candidates looking for new positions.

Quality Screening Process - Every candidate undertakes a detailed interview before they are presented to any client.

Exclusive Job Search Portal (www.sewika.org): Our exclusive job search portal, allows Employers to browse our candidates and submit a hiring request for immediate follow-up. Job seekers can search thousands of job listings from the companies and can submit a resume, apply for temporary or full-time positions and subscribe to job alerts to stay updated on brand-new opportunities.

RESULTS DETERMINED PROFESSIONAL RECRUITMENT AGENCY

A professional recruitment agency based in Kanpur, Uttar Pradesh Cyber Academy has a proven track record of recruiting across the country. Our consultants have prosperity of recruitment experience enabling the organization to provide a “**TANGIBLE TRANSFORMATION**”.

The business was started to provide an effective recruitment service to various companies in country, which included **Vardhman**, one of the largest fabric manufacturing organisations in India.

Skills that We Recruit for:

- Construction
- Garment Making
- Fashion & Textile Designing
- Information Technology
- Plumbing
- Carpentry
- Sales & Marketing
- HR Management
- And a lot more...

SWAROJGAR - Our Unique Placement Model

SWAROJGAR – Working Model

SWAROJGAR- A Unique Approach

SWAROJGAR – A Unique Placement Approach

The very common issue is to arrange the jobs for the candidates amongst existing training providers. Cyber Academy has developed a different & unique approach for all training programs. The Uniqueness comes with a strong vision of cent percent placement of the candidates undergoing any of the training programs, whether a long terms career oriented course or a short duration professional course.

Swarojgar - Core Issues with females

Females cannot move to a long distance based employer organization and cannot work till late evening for safety reasons. Females cannot avoid their daily routine works and responsibilities towards their family members.

SWAROJGAR, an initiative taken by the founders of Cyber Academy, is to arranging the self-employment for the trained candidates, especially females from rural areas by arranging the necessary components like; availability of funds along with the machinery & equipment along with the proper guidance and technical supports.

Swarojgar Support Systems

- Cyber Academy helps candidates in purchasing equipment like; stitching machines & other required accessories.
- Cyber Academy helps candidates to get loan from the bank under various government schemes like; Pradhanmantri Mudra Yojna etc.
- Cyber Academy ensures that candidates could work from their home itself.
- Cyber Academy ensures that candidates should get continuous work.
- Cyber Academy distributes margins/profit as per the candidates' capability & performance

To Be Competitive

- Cyber Academy takes bulk orders from the market for self-employed candidates.
- Cyber Academy purchases raw material from the market in bulk for reduced pricing.
- Cyber Academy gets the job completed at very low and competitive cost.
- Cyber Academy is working under this segment to generate maximum employment.

Social Benefits

- The mission of the cyber academy through this approach is to reduce poverty by enabling the poor households to access gainful self-employment and skilled wage employment opportunities, resulting in appreciable improvement in their livelihoods on a sustainable basis.
- Women can work from their homes enabling them to take care of their household responsibilities.
- Employed people enhance healthy living in society thereby reducing antisocial activity.
- This business module is almost pollution free.

Picture Gallery of the Self-Help Groups

Monitoring of working System: Apart from the above mentioned support systems to individually self-employed personnel and Self-Help Groups members, we monitor the working of them atleast for one complete year to make the system run in an effective manner. We provide technical guidance, marketing analysis and updates to candidates time-to-time to help them sustaining with the market ups & downs. We also provide them information about various newly introduced & updated government schemes, so that they can take maximum benefit out of it.

“SWAWALAMBAN”

(A Self-Help Groups based unique employment model by Cyber Academy)

SWAWALAMBAN is an initiative by Cyber Academy of micro-enterprises covering all aspects of self-employment, organization of the rural poor into Self Help groups and their capacity building, planning of activity clusters, infrastructure build up, technology, credit and marketing. Its' usually a group formed by the community women, which has specific number of members like 15 or 20. In such a group the poorest women would come together for emergency, disaster, social reasons, economic support to each other have ease of conversation, social interaction and economic interaction. The main objective of this initiative is to bring the beneficiaries above the poverty line by providing income generating assets to them through bank credit and government subsidy.

The Establishment:

The SHGs broadly go through three stages of evolution such as:

- Group formation.
- Capital formation (through the revolving fund).
- Skill development and taking up of economic activity for income generation.

Need of Self-Help Group (SHG):

The very existence of SHGs is highly relevant to make the people of below poverty line hopeful and self-reliant. SHGs enable them to Increase their income, improve their standard of living and status in society. It acts as a catalyst for bringing this section of society to the main stream.

Objectives of SHG:

- To inculcate the savings and banking habits among members.
- To secure them from financial, technical and moral strengths.
- To enable availing of loan for productive purposes & to gain economic prosperity through loan/credit.
- To enhance the confidence and capabilities of women.
- To motivate women taking up social responsibilities particularly related to women development.
- It acts as the forum for members to provide space and support to each other.

Brief List of Self-Help Groups established by Cyber Academy

ONE DISTRICT ONE PRODUCT TRAINING AT LUCKNOW CENTRE

“One District-One Product”, Uttar Pradesh

In a state as vast as Uttar Pradesh – a geographical expanse of 2,40,928sq km, a population of 204.2 million people – there cannot but be great diversity in all facets of life. There are diverse terrains, diverse crops and foods, diverse climates, and coming from all these, diverse community traditions and economic pursuits. Hence comes the great and beautiful diversity of crafts and industries in Uttar Pradesh, in which even small towns and small districts are known for interesting and unexpected products typical of that area.

The UP government’s One District, One Product scheme aims to encourage such indigenous and specialized products and crafts. There are products in UP that are found nowhere else – like the ancient and nutritious 'Kala namak' rice, the rare and intriguing wheat-stalk craft, world-famous chikankari and zari-zardozi work on clothes, and the intricate and stunning horn and bone work that uses the remains of dead animals rather than live ones, a nature-friendly replacement for ivory. Many of these products are GI-tagged, which means they are certified as being specific to that region in Uttar Pradesh. Many of these were also dying community traditions that are being revived through modernization and publicization.

Other district-specific industries are more commonplace, but their products are still unique to those regions. Asafoetida, Desi ghee, Fancy glassware, Bedsheets, Jaggery, Leather Goods – the districts that specialize in these crafts are in UP, and you might already own or use a UP product without knowing it. These are also small and medium industries that need modernization, machinery and productivity enhancement.

Like the diversity of its people, climates, faiths and cultures, the diversity of products and crafts in UP is also breathtaking. Embark on this journey of exploration and travel across 75 districts to see the one product they are known for – some will already be in your home, and the rest, we have no doubt, will soon get there.

Cyber Academy has also organized exclusive training on “Handicrafts” under ODOP at Lucknow & Unnao centre. The training was provided to candidates under Recognition of Prior Learning (RPL) scheme.
